18 - What aspects of the course and/or Ezra Goldstein's instructional methods have you found the most useful or valuable for learning? Please give examples. -

Response Rate	4/11 (36.36%)
<ul style="list-style-type: none"> • I like that Professor Goldstein follows along the notes and writes them down with the students. It helps to clearly know what information needs to be known. He was very enthusiastic about the course and very positive. • He is very passionate about what he teaches which makes the hard material more enjoyable to learn. • Ezra gives interesting examples and connects previously learned concepts to make the material relevant and interesting in the classroom. • Ezra was a fantastic professor and did a great job of both showing and applying the information while also making sure that all students understood the material or had the opportunity in or out of class to speak with him and understand it better. 	

19 - What aspects of the course and/or Ezra Goldstein's instructional methods could be improved that would enhance your learning? Please give examples. -

Response Rate	3/11 (27.27%)
<ul style="list-style-type: none"> • More in class graphing with real numbers and situations • very little structure, would have liked to see learning objectives along the way rather than just the title of the chapter • I think that more mandatory long math-based problems should be assigned to force me to study more effectively for the test. 	

20 - Please list additional comments and/or suggestions.

Response Rate	1/11 (9.09%)
